**TONY CURTALE – TEXAS TORNADO**

**MARK FRANKENFELD - NAHL**

**Dallas Developmental Hockey Inc.**, Coaching Camps and Instruction is designed to provide the Dallas area the best resources for developing skills as a hockey player. Our philosophy is to teach and train the correct hockey skills that are necessary to facilitate development. We provide the instruction and feedback to break down the skills properly. We show the athlete the proper mechanics and give the proper reps needed to make a significant change in the athlete's game. We expose the athlete to the mental and physical skills needed to succeed. These concepts are not brought into traditional camps but are a must for the athlete to maximize their skills and succeed at the highest levels. Most important, as career coaches, we have the experience to teach the athlete how their skills actually relate to the game of hockey. You will not find another camp that parallels our staff's experience and passion for coaching and developing hockey players.
