

LIMITED TO:

- NON-REPAIRABLE DAMAGE CAUSED DURING **NORMAL USE.**
- MULTI-MILE BRANDED TIRES AS LISTED ON FRONT PAGE
- FIRST 4/32 OF TREAD RUBBER
- LISTED TIRES BRANDS/LINES PURCHASED BETWEEN **OCTOBER 1, 2007 AND DECEMBER 31, 2008.**

DOES NOT COVER:

- 1) **COST OF REPAIR OF REPAIRING** DAMAGE IN THE TREAD AREA
- 2) **COST OF MOUNTING, BALANCING** AND OTHER COST OF REPLACEMENT (ADPP) TIRE
- 3) **COST OF REPLACEMENT TIRE-PRO-RATA** REPLACEMENT CONSUMER PAYS FOR THE TREAD USED, UP TO 4/32 OF USED (DIFFERENCE BETWEEN THE TREAD DEPTH OF THE NEW TIRE AND THE (ADPP) WORN TIRE).

EXPIRES:

THIS PROTECTION PLAN IS NULL & VOID WHEN TIRE(S) ARE WORN BEYOND 4/32 OF ORIGINAL TREAD DEPTH AND/OR 24 MONTHS FROM DATE OF PURCHASE

TIRE REGISTRATION IS REQUIRED BY LAW

TIRE REGISTRATION CAN BE DONE BY CONSUMER AT:
WWW.TBCPRIVATEBRANDS.COM/TIREREG
OR VIA US MAIL - POSTCARD AVAILABLE

This limited Warranty is made by Keystone Tire and applies only to the tires originally sold by Keystone Tire and listed herein that are used within the limitations stated in this booklet.

This warranty makes no claim that your tire will not fail or become unserviceable due to road hazards or any other cause.

Continued driving on any tire containing a puncturing object may lead to tire failure. Check your tires frequently. Remove any foreign objects from the tread and have necessary repairs made immediately. Always check and adjust air pressure every 30 days.

ELIGIBILITY

You are eligible for the benefits of this warranty if you are the original owner of your Multi-Mile tire and if the tire has been used only on the vehicle on which it was originally installed. In addition, your tire must have been used according to your vehicle manufacturer's recommendations, in non-commercial passenger car, light truck or sport utility vehicle service (including family vans and mini-vans).

LEGAL RIGHTS

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

OWNER'S OBLIGATION

A. It is your obligation to present the tire for which you are seeking an adjustment to the dealer from whom the tire was purchased.

B. You are responsible for payment of any additional parts or services ordered (including alignment)

C. No claim will be recognized unless accompanied by proof of purchase, your identification as the original purchaser, identification of the vehicle on which your tire was originally installed and, in the case of a claim.

LIMITATIONS

These warranties are applicable only in the United States. These warranties do not cover, and no adjustment will be made for:

- Tires improperly repaired or with repairs not conforming to Rubber Manufacturers Association standards, or with section repairs, or with self-vulcanizing plug only.
- Tires used in commercial applications on pickup

LIMITATIONS

These warranties are applicable only in the United States. These warranties do not cover, and no adjustment will be made for:

- Tires improperly repaired or with repairs not conforming to Rubber Manufacturers Association standards, or with section repairs, or with self-vulcanizing plug only.
- Tires used in commercial applications on pickup

- trucks, campers, recreational vehicles, or stretch limousines (including taxi cabs, police cars, and emergency vehicles.

- Tire conditions resulting from improper mounting procedures (including broken beads), improper inflation, overloading, mechanical condition of the vehicle, racing, fire, theft, vandalism, collision damage, or other tire neglect of mistreatment.

- Ozone or weather checking on tires over four years from the date of manufacture or proof of purchase.

- Tire conditions resulting from intentional tire alteration, such as the addition of white sidewall inlay or balancing or sealing materials.

- Personal injury or property damage, including injury and damage arising from failure to observe the safely information listed below or other circumstances beyond TBC's control.

- **Loss of time, inconvenience, loss of use of your vehicle, or incidental or consequential damages.**

- Irregular and/or untimely wear caused by mechanical defects in the vehicle, the use of defective and/or unsuitable rims, inflation pressures different from those prescribed, loads exceeding those prescribed by the vehicle manufacturer, the towing of trailers whose weight and/or size exceeds the values specified in the vehicle registration certificate.

- Damaged caused by improper and/or prolonged use of snow chains.

- Damage following use in competitions.

- Unsuitable use of the tire, in conflict with its technical characteristics, in particular damage and irregular and/or untimely wear caused by unasphalted roads or roads in poor maintenance conditions.

- Damage caused while fitting or removing a wheel and/or tire.

- Theft and damage caused by acts of vandalism.

- Damage due to road accidents.

- Problems due to road accidents, fires, acts of God

- Deterioration due to prolonged contact with mineral oils, hydrocarbons, solvents, acids.

- Tire sizes, load indices and speed ratings not corresponding to those indicated on the vehicle's registration documents.

- No commercial or off-road use.

Some states do not allow the exclusion of limitation of incidental or consequential damages, so this limitation or exclusion may not apply to you.

No express warranty is given other than as stated herein. No implied warranty of merchantability, fitness for a particular purpose, or otherwise, is given on tires used on pickup trucks, campers, recreational vehicles, or stretch limousines, or in commercial applications. Only the original equipment size will be warranted for mileage.

No express warranty is given other than as stated herein. No implied warranty of merchantability, fitness for a particular purpose, or otherwise, is given on tires used on pickup trucks, campers, recreational vehicles, or stretch limousines, or in commercial applications. Only the original equipment size will be warranted for mileage.

IMPORTANT SAFETY WARNINGS

Serious injury may result from:

- Tire failure due to under inflation/overloading. (Follow owners manual or tire placard in vehicle.)

- Explosion of tire/rim assembly due to improper mounting. (Only specially trained persons should mount tires.)

- Failure to match the tire's bead diameter with the rim's bead seat diameter. (Example: a 15 inch tire must always be mounted on a 15 inch wheel or rim.)

These recommendations can save you money and reduce the risk of tire failure.

1. Check tire inflation pressures frequently (at least every 30 days). Always check pressures when tires are cool and maintain the pressure recommended by the vehicle manufacturer.

2. Check your tires frequently for injures such as cuts, abrasions, and impacts. If you detect any foreign objects in the tread or suspect impact damage, have the tire inspected and repaired, if necessary, by an authorized dealer.

3. Avoid running over debris (such as glass or metal) or potholes, which could cause tire damage.

4. Never load your tires. The maximum load and inflation pressure of the tire is molded into its sidewall. Remember - only inflate tires to maximum air pressure if your tires are carrying the maximum load.

5. If your vehicle is stuck in snow, mud, sand or a physical barrier such as a ditch, avoid excessive tires spinning. Never exceed 35 mph on the speedometer when spinning your wheels; the centrifugal force generated above the speed could result in a sudden tire explosion and possible injury. Use a gentle backward and forward rocking motion to free the vehicle.

6. Never mount radial ply tires on the same axle as non-radial tires. Never mount radial tires on the front axle when non-radial tires are mounted on the rear axle. These conditions could create vehicle instability resulting in a sudden loss of control and serious injury.

7. Never drive on tires with less than 2/32 inch of remaining tread. Replace tires as soon as the treadwear indicators become visible in the tread. These will appear as a solid bar across the tread - they will indicate that 2/32 inch or less of tread depth remain.

Failure to replace tires may result in loss of vehicle control or serious injury.

8. Never operate your vehicle in excess of lawful speeds or the maximum speeds justified by driving conditions. With proper care and handling, your Multi-Mile tire will give your vehicle a smooth ride - with quiet ease and control.
