- Builds the soccer skills and team commitment needed to play at the highest levels possible.
- Teaches players how to play their best soccer in a team environment.
- Provides excellence in coaching, training and facilities needed for players to reach their maximum.

There is a plan for player and team development.

The Blackhills FC program focuses on the development of individual player techniques and team tactics and is structured as a progression of individual technical and tactical training appropriate for the age and ability of the player.

Why Play Select Soccer?

Blackhills FC offers age-appropriate soccer training and technical development for kids who love to play soccer. Players who are looking for a more competitive type of play, and who want to improve their fitness and soccer technique are well suited to the programs offered by Blackhills FC.

By becoming involved in Blackhills FC a player will get experienced coaching, intensive technical development, more playing opportunities, and teammates who share in common a commitment to become higher level soccer players.

***Blackhills players
never stand alone!***

Blackhills FC is a PDL Club

The PDL is a select group of only 20 soccer clubs in Washington that consistently demonstrate the ability to develop the highest caliber teams and players, and maintain a commitment to appropriate developmental philosophies for youth.

The PDL seeks to play "like vs. like" teams in exclusive leagues composed of clubs that consistently demonstrate high quality soccer training and competition. Utilizing shorter league seasons, quality of instruction is emphasized over quantity.

Blackhills FC players and coaches have a passion for soccer, a desire to improve, and a goal to play at the highest possible level. Our coaches and players have demonstrated the necessary success on the pitch and in the community to merit this prestigious classification.

Blackhills FC Offers:

- Consistent training schedules.
- Players may practice with other Blackhills FC teams for additional training or make up a practice.
- At least 2 team practices per week.
- Structured practice regimens.
- Specialized goalkeeping training.
- Additional specialized soccer training for all players.
- Two written player evaluations per year.
- A dedicated coaching staff.
- A dedicated Executive Board.
- A coordinator who organizes club and team fundraisers and volunteer opportunities which may reduce player fees.
- In the near future, the use of a community-sponsored complex of 8 to 9 soccer fields now under construction.
