Achievements: I have been involved in skating since I was 9 years old and teaching for 7. Skating in the Annual Ice Show was one of my favorite achievements, where I earned a solo spot several times. Competitions were a major part of my skating career, with great success. After several years of being a skater, I volunteered and started teaching group lessons, eventually taking on private students. I have passed my USFSA Pre-Juv testing along with my Preliminary Free Skate. Completed FS 6 of International Skating Institute. I am a Registered Coach and member with the United States Figure Skating Association, a member of the Professional Skaters Association and carry liability insurance.

Philosophy: I like to keep learning fun for the younger students. by interacting with them. They are learning without even knowing it. For the more advanced skaters, I take my time and break down each element. If it doesn't work one way, I try another. Skating should be kept in perspective with everyday life and not be a stressful experience. I like to relay that message to my students.

Privates: I am available to teach private lessons starting with Snowplow Sam through the Preliminary Level.

Experience: I have been skating myself since age 9. Through those years, I competed in various competitions and tested through Freestyle 4. My last 2 years of skating prior to beginning college, I was a part of a Junior Classic synchronized skating team. I am a registered Coach and Member of USFSA and carry liability insurance.

Students: I am interested in working with beginning skaters, SAMS to Basic, that are looking for extra 1:1 time in addition to participating in group lessons. It is a strong belief of mine that every child has a different method of learning; therefore, my goal is to be able to understand their method of learning and to be able to teach in a manner that they will be receptive to.

Privates: I have availability to teach after group lessons on Wednesday evenings from 7-8pm on the public skating ice. Saturday's are also an option depending on weekend schedules.

Achievements: I have been involved in skating for over 12 years, as both of my daughters were figure skaters and have been teaching for 11. I have taken several of my students to competitions with great success. The production and choreographing of group numbers for skating shows, also skating myself in instructor numbers, is one of my favorite accomplishments. I am a Registered Coach and member of USFSA, a member of PSA and carry liability insurance.

Philosophy: Each individual is unique and learns in different ways. I like to keep it fun, but serious. If a skater is struggling with a maneuver, I try to create different ways of teaching so that skater can reach their goals. I take each scenario serious whether you or your skater are looking to learn for recreational fun, or are more serious and would like to skate at the competitive level.

Privates: I am available to teach private lessons starting with Snowplow Sam through the Preliminary Level.

Susan Kivisto

Experience: I began seriously skating when I was 9 years old. I competed through age 16. I have accomplished the figure classes through the fourth level, Ice dancing thru Silver level, and finished competing in freestyle 8. I have attended skating schools at Michigan State, Buffalo, and Lake Placid. I am a member and registered coach of USFSA, and carry liability insurance. I have been teaching lessons for 26 years, have taken several skaters to competitions, have experience in ice shows, and love to skate outdoors in the winter.

Privates: I am available to teach private lessons during Wednesday night open skate. I like to teach people of all ages in a disciplined, but fun atmosphere, and like to see results.
