Coach Orlando's mission statement

Hockey is an awesome game that is enjoyed by a wide range of people. It can be extremely challenging without the basics, regardless of age, level or tier.

I prefer the common sense approach. Keep it simple. Keep it fun. Put our players in the best position to be successful. This can be accomplished by providing team structure, competitive practices and the basic fundamentals that are reinforced all season. This simple formula will provide the tools necessary for all to grow as players as well as people. Hockey 101, it works from Mites to Midgets!
