 - Midget Ice Dogs: 2001-02
 - North Penn Varsity: 2002-03
 - Junior Patriots: 2003-04

Coaching Philosophy

At the Squirt B level, our primary focus will be on skating and skills. We want our players to become strong skaters and to gain confidence in their overall game. For young players, especially at the squirt age level, I believe that skating ability and skills are the most important focus areas.

Our practices will be high tempo and we will keep the players moving and working hard. Practices will be laid out and organized, focusing on skating and puck skills (passing, stick-handling, shooting) the first half, and then incorporating those skills into team drills in the second part of practice.

We will do our best to make sure the players enjoy their experience. Above all, we want the players to have fun while also improving as hockey players.
