WEATHER

In case of in climate weather, according to the city of Plymouth website, we can call 763.509.5205 to check for cancellations. It will be up to the coaches to check fields to see if they are fit to play on, if it is not raining and the infields do not have standing water, the games should be played. If the coaches feel the fields are not playable, please contact your players. The umpire scheduled for the game will call the HOME coach to find out if the game is being played.

We will handout contact information for coaches from St. Louis Park, Orono and Hopkins. If we have games scheduled at home with teams from these associations, please contact them also and as soon as possible.

Games should be suspended if thunder can be heard and/or lightening seen. A storm is within 10 miles.

RAINOUTS

Due to a lack of field space, if a game is rained out, the PWYSA does not reschedule rainouts. If teams wish to play make up games, it is the responsibility of the coaches to contact Kent Sticha (ksticha@comcast.net) to schedule a field. If you want an umpire, please contact Carolyn Seely (gcseeley@comcast.net) or Sue Mrachek (mrachekst@mchsi.com). They are the umpire coordinators.
