

June 2010

John Foust  
Dranesville District Supervisor  
McLean Governmental Center  
1437 Balls Hill Road  
McLean, VA 22101

Dear Supervisor Foust:

I am writing to you in support of the efforts of McLean Youth Soccer to improve the playing fields in the Dranesville District.

**Please support the MYS Field Development Initiative at Spring Hill #7.**

This is important to me and my family for the following reasons (check one or more):

- It will improve the safety of our fields.
- We have more children playing youth sports in the McLean area. This usage exceeds the number of rectangular fields that was originally designed. We need turf fields in our community that can sustain the greater usage.
- Lights are not being requested.
- Turf fields are environmentally safer.
- These fields will support other sports within our community.
- Parking will be more accommodating with the new parking lot expansion.
- We need places for our children to play where there are restrooms.
- These fields are close to our homes and we still approve this project. WE live near these fields.
- I have children involved with McLean youth sports other than soccer or do not but still support MYS.

Thank you in advance for your commitment to improving field conditions in the Dranesville District.

Sincerely,
