Coaching Philosophy

At the Mite level the kids are in every sense of the word, kids. As such, I think it is just as important to develop a love of the game, as it is the individual skills required to play the game. I believe you do that through positive reinforcement, promoting the team concept in that everyone is equal, and understanding that not all players develop at the same pace.

My goal as a coach is for the kids to view the rink as a place they want to be. To view it as a place where they feel confident among their teammates, and feel a sense of pride in being a part of a team.
