**Comments:** Super skiing the groomers have been out daily, last night we received 4 inches of new snow.

**Events:** We are starting up one of my favorite, casual events: Clydesdales Night. We invite casual male skiers 200# plus to join us for a ski. This group is a mix of 20 -60 year old skiers from newbies to advanced. We classic ski from 3 km to 15 km starting at 4 PM, the last group goes out at 4:30 PM. This is a group event; no one skis alone.. we are a team and we pull together Clydesdales.

ABR supplies the gear and trail pass at no charge and we take turns with bringing the snacks and drinks to follow. The saunas are hot too.

There are only a couple places on the whole system where there is exposed leaves/ground in the bottom of the track. Skate skier can leave their rock skies at home, the trail looks beautiful.

**Comments:** Doug went out to groom and comb out the scant new snow we received yesterday. No tracks were set. Unfortunately, the 2-3" of new snow did not amount to enough to increase the base and allow setting tracks. That nice over story, in the pines, balsams, and spruces, has prevented any snow from building up on those trails and are in poor shape.

**Comments:** This trail varies in difficulty with plenty of easy skiing in the first loop and the west half of the upper loop. Portions of the upper loop and cutoffs on the east side of the lower loop provide more challenge for the advanced and expert skiers. There is a three-sided shelter with a fire ring provided as a warming shelter on the west side of the upper loop. Flambeau River State Forest, 715-332-5271.

**Events:** Trail was groomed and tracked on Saturday, 01/14/12, trail condition ranging from poor to excellent. Open areas and south facing hillsides are in poor to fair condition with a very transparent base, wooded areas are generally in good condition with an occasional excellent segment thrown in. Next grooming not yet scheduled, waiting for more snow.

**Percent of Trails Open:** 60 %  
**Km groomed for Classic:** 6  
**Km groomed for Skating:** 25

**Comments:** With somewhere like 4-7 inches of new snow last night. Today doc and helper rolled all the classic trails. I packed Jolly Long with the ginzu. Anchor, Seagull, Rollercoaster, and Telford I packed and tracked. The top part of Anchor and Seagull looked to come out real well with full depth tracks most places. The bottom part of Anchor the track was a bit ugly the first 1/2 km, but improved after that. Birch Hill and Jolly Connector I rolled as well. Generally I'd rate the Ashwabay skate good to very good condition. Jolly trails and classic only trails I would rate as fair to good.

**Events:** XC Skiers are encouraged to train on the alpine hill, especially in the evenings after the chair lift stops, and we leave the small floodlights on the chalet illuminated. We have an artificial base of 12+ inches. Several local teams(Northland, CANSKI) are already taking advantage of this. If you have a large group, we are willing to turn on the hill lights as well. Call the chalet 715-779-3227 and talk to Pete or Levi.

**Events:** Trail condition remains the same on all ski trails in the Park Falls Area; even though we are getting small snow flurries the snow amount, type (light powder), and wind conditions are not favorable for grooming. We are looking at grooming Wednesday the 19th or Thursday the 20th. 1/13/12 - The trail was groomed and tracked today and the condition is excellent.
