

## NBHL Travel Team Selection Guidelines

In order to serve our Mission, the NBHL adopts this statement of principles which shall serve as guidelines for Travel team selection.

1. The NBHL will not recruit players and will not permit its Coaches to recruit players (other than players needed to complete rosters of the lowest team at an age level).
2. While team selection is within the discretion of the Coach for each team, the Coaches' selections are subject to final approval by the NBHL President and Travel Director in order to assure that the selections were done in a manner consistent with these guidelines.
3. As between players residing within the Glenbrook North High School district ("NB resident") and players residing outside that district ("OD") of relatively equal abilities, the Coach should select the NB resident(s).
4. All current and former NBHL players (whether selected to Spring or Fall teams and regardless of residency) and their siblings may try-out for a NBHL Travel team regardless of whether the NBHL is their first or second choice. Such players are not subject to the potential limitations on new OD players described in paragraph 5, below.
5. The NBHL (acting through the Executive Board) reserves the right to limit the selection of OD players who are seeking to exercise their second choice with the NBHL. Players seeking to exercise their second choice with the NBHL should consult with our Hockey Director, President or Travel Director for further information prior to try-outs.
