December, 2009

Dear Friends and Family of the Kettle Moraine Ice Center:

In certain respects, the music has stopped and we are the ones left standing. So it is with a sense of urgency we are writing to you and each family that benefits from our unique community asset we all know as the *Kettle Moraine Ice Center*.

As you may know, our quality and durable facility was completed 18 years ago with direction from dedicated volunteers working with a budget constrained by efforts in the fundraising campaign that fell short of the goal. As a result, our facility was only partially completed and, today, has only one common entrance, inadequate space for training and instruction, and limitations for hosting tournaments and other revenue-generating activities.

All these years later, we are pleased to have an opportunity to support a well-conceived plan to finish what was started and to take modest renovation steps to enhance existing space. The Board of the Association has been deliberate in considering options and enlisting support in our community that now exceeds \$470,000.

So now, as parents of enthusiastic players and a former WCYHA player, we are charged with asking for your financial support as our campaign appeals extend throughout our community. To make it easier for you to decide the level at which you wish to participate, we will match each dollar a member family contributes up to \$15,000. This *challenge* will extend for all contributions postmarked by March 15th.

The enclosed *statement of intent* card and return envelope are for your convenience. We will keep you informed of our progress in the weeks to come.

Thank you for your interest and consideration.

Angela Breckenridge, D.O.
Association Parent

David Steckel
NHL Washington Capitals
Former WCYHA Player

Doug Werner
Association Parent
