St. Paul, MN

Strauss Skates and Bicycles began in 1887 first as a bicycle manufacturer and then as a manufacturer of ice skating blades. They soon became some of the finest blades in the world and customers ranged from Olympic Gold Medalists to the Chicago Blackhawks to local St. Paul residents simply wanting to enjoy our beautiful winters. Over the years, Strauss expanded to include retail sales of speed skating, hockey, and figure skating equipment.

Today, Strauss is a full service specialty retailer of hockey and figure equipment, as well as cycling, lacrosse and team apparel. It maintains a factory authorized skate and bicycle repair shop as well as expert skate sharpening.

For nearly 125 years, we have applied the same attention to detail in selecting the proper equipment for each athlete. At Strauss, we continue to strive to bring our customer the final word in quality, service, and craftsmanship. We'd be proud to earn your business.

Carris F - March 2009: ★★★★★

My son started hockey this year and we went to Strauss to get some used skates. They had great selection and the staff was incredibly helpful in assisting us with what we needed. We've been back plenty of times throughout the season and their service is always wonderful.
