How do I add a Single Photo Page Element?

Adding a Single Photo Page Element:

1. Ensure you are on the correct page and toggle to **Edit Mode**.

2. Click **Add Page Element**

3. Select **Single Photo** from the Page Element Menu.

4. Click the **browse** button to find the image on your local computer
5. Click **Create This Page Element**

*A Single Photo Page Element can be added to any page. The system will automatically resize and proportion the image to fit on your page.
