Base Hockey is coming to Lakeville

Great NHL stick handlers and shooters all have the NHL Advantage: specialized shooting knowledge, optimal stick specs and great technique.

Cliff Ronning and **Al Iafrate** formed **Base Hockey** (with their 33 years of NHL experience) to bring the NHL-Advantage to you. Since your shot happens in 1/4 of a second, BASE uses high speed video to analyze your shot, determine your optimal stick specs and teach you the proper shooting technique.

A one hour investment in a 1/4 second shot. That's the **Base** experience. Your NHL Analyst this week is: **Al Iafrate**

Base Hockey's Shooting Analysis and Instruction Team will be in Lakveville at Total Hockey Minnesota

The **BASE** Shooting Analysis

One hour private session with our NHL fitter (One-on-One) includes:

- 20 Minutes - High speed video analysis to determine optimal flex, blade curve, lie and stick size/length.
- 20 Minutes - Demo the stick with the recommended specs. All demos are with your skates on ice.
- 20 Minutes - Shooting instruction
