

## Comments from WBLAHA U10/U12 Fall Camp Survey

- One word describes the coaching... TERRIBLE!!!!
  - Good interaction with the girls.
  - The drills were much too unorganized for 12 year old girls. Huddles in the middle of the ice where unnecessary.
  - Thank you!
  - The girls enjoy having other females as role models.
  - great camp
  - The coaches were too confusing, and so were the drills.
  - Thank you!
- 
- The association needs to do something similar to this on the boy's side.
  - Coaches should NOT be involved in the camps
  - We would like to see more adult females encouraged to become involved with the girls hockey program.
  - It would be good if there were at least four coaches on the ice. Give more help to the girls during the drills. Help improve the players.
  - Bring in pro-hybrid to work with the goalies
  - The women of OS were great for the girls program in White Bear Lake. They should do the fall camp every year.
  - It was fun to get back out on the ice and have two very good coaches that know all the basics to come out and work with us.
- 
- Great job getting the OS staff for the fall camps!
  - Incorporating the Os instructors was a great idea. I hope you're able to bring them back next year too.
  - My daughter mentioned that it was hard to "huddle" around the OS Hockey coaches to see or hear the sketching of the drill. When there are 30 plus players on the ice, she felt it would be easier to demo the drill instead of showing it on the ice or board. Not everyone could see or hear what the coaches were going over because of the number of players "huddled" around the coach.
  - OS staff seemed to work well with the girls and the girls seemed to bond well with them.
