

LeasePlus™

Helping you to navigate the complexities of managing your portfolio

LeasePlus™, has been recognized as the leading lease and loan portfolio management software solution for equipment finance companies throughout North America. Its successful, unique design of asset management, lease and loan accounting, portfolio servicing and report generation is flexible enough to serve the needs of equipment financiers of all types and sizes. Here is a glimpse into the benefits you can achieve by utilizing **LeasePlus™**:

OFFER FLEXIBLE FINANCING OPTIONS

LeasePlus™ gives you the flexibility needed to meet your customer's various financing needs. The ability to offer leases and loans is just the start; variable rate, same as cash, floor planning and line of credit structures give you a glimpse into the wide range of financing options **LeasePlus™** is capable of managing.

EXPAND YOUR FUNDING HORIZONS

Rely on an industry leading system to expand your funding horizons. Warehouse lines, term lines, securitization and venture financing are just a few funding options that can be managed within **LeasePlus™**. In addition, the system provides your company with a platform that promotes the operational vigor, efficient servicing and timely reporting required to attract and maintain your funding source relationships.

EFFECTIVELY MANAGE CASH FLOW

LeasePlus™ provides many tools that can help you meet your customer's cash flow needs while providing you the ability to effectively and efficiently manage your own cash flow. Provide your customers flexible payment structures through the ability to set step, skip and seasonal payment streams. Meanwhile, you can ease the collection burden on your staff by providing a wide range of easy to read invoices and statements to your customers, utilizing rules based engine to automatically apply checks or remittances received through ACH or Lockbox and a robust collections and customer service dashboard so your employees have the right information at the right time to take action on those accounts that need your immediate attention.

EFFICIENTLY MANAGE YOUR CONTRACTS

Contract booking, mid term changes or end of term processing can be time consuming and mistake prone activities. With **LeasePlus™** you have a system that allows you to efficiently manage your contracts with confidence. Contract booking is simplified with entry templates, interim rent & interest calculations and FASB 13 testing. While mid term changes are easily accomplished no matter if it is a term extension or a partial buyout using the asset based payoff calculator. Finally end of term processing such as automatic renewals, residual recovery and terminations are all completed with ease.

MANAGE COMPLIANCE & RISK

LeasePlus™ provides you with a system you can rely on to efficiently and effectively comply with sales and property tax authorities. In addition, **LeasePlus™** provides the ability to electronically file and track your UCC's as well as bill for and track insurance policies all of which serve to protect your valuable investments and ultimately mitigate your risk in a transaction.

INFORMATION AT YOUR FINGERTIPS

In addition to the over 200 standard reports offered in **LeasePlus™**, LeaseTeam's suite of reporting solutions consists of unique tools that work together to provide a complete reporting, analysis, data extraction and distribution solution.

The LeasePlus suite of integrated modules and interfaces include the following:

- A DP Taxware
- ALI (American Lease Insurance)
- Assurant
- D & B (Dun & Bradstreet)
- Microsoft Dynamics
- Great American Insurance
- PTMS (Property Tax Management System)
- CT Lien Solutions
- Vertex

About Us

With more than 20 years experience providing quality software and business solutions to companies in the equipment finance and leasing industry, LeaseTeam, Inc. provides exceptional software, support, training and strategic consulting services to more than 250 financial organizations throughout North America. Don't just take our word for it... We invite you to meet our people, our customers and view our products to see for yourself!

System Configuration

LeasePlus™ and **ASPIRE™** run on all major Windows based operating systems and LANs, including Windows 7, UP Professional and Windows Vista Business Workstations; Windows 2003 and Windows 2008 Servers. These products use Microsoft SDK Server 2000 Spy, SDK Server 2005, or SDK Server 2008 for database management.

LeasePlus™ and/or **ASPIRE™** may be licensed and installed on your servers, or LeaseTeam can run these products for you at our ASP.

Application Deployment Options

LeaseTeam provides the option of deploying our systems on premise or in a hosted environment. These options give you the ability to utilize an industry standard product suite in an environment that meets the cost structure and technical orientation of your organization. LeaseTeam will work diligently with you to assess the pros and cons for your particular situation so that you have the information needed to make the best possible deployment decision for your company. The following are just a few of the benefits of each option:

Application Hosting:

Minimal upfront investment
Less dependence on IT personnel
Highly available system environment
Easier access for distributed workforce

On Premise (You Host Software):

Control of system environment
Data Access for ad hoc reporting
Integration capabilities with internal products
Internet not needed to access system
