Illinois Fusion
Junior Coach Program

"To teach is to learn twice"
~ Joseph Joubert (1842)

Description – One of the best ways to improve your own abilities is to teach others what you know. The process of teaching pushes the instructor to analyze and consider technical and tactical aspects of the game which may not have been consciously considered. Junior Coaches will develop leadership skills as well as soccer skills as they assist team coaches to develop younger players technically and tactically.

Responsibilities – Work with players to improve technique and decision making under coach's direction; help transition between activities; demonstrate as needed

Scheduling – Please contact Craig Lee (craig.lee@illinoisfusion.com) to set up either a single session or regular sessions to attend as a Junior Coach.

Instructions – Bring this form with you each time you attend a session. Have the team coach sign the form and send it to the office when it is complete.
