

ADMIRALS HOCKEY CLUB

Mighty Mites WINTER 2012

January 7–April 1st

13 Weeks

\$495.

Mighty Mites is the pre-league step in your young athletes development. This is a teaching program designed to further develop the Admirals younger mites toward league play. Mighty Mites is an introductory team and coaching environment for beginning young Mites. Mighty Mites average a practice, a game, and Skills & Drills each week throughout their session. Mighty Mites, designed to run in sixteen-week sessions, may accept players at any time throughout the session. In some cases, participating Fall Mighty Mites may be added to league teams prior to the end of the session.

All players who register will be placed on a team. These are teaching teams and there are no cuts. Mighty Mites does accept players “in session” based on ability and space per team. It is the intent to keep these teams small. In the case of excess registrations every effort will be made to field additional teams. If this is not possible, registration date or postmark date, will determine eligibility.

**Jersey
and Socks
Included!**
