Advanced Baseball Development Youth Baseball Camp

Coach Jancuska has a philosophy that baseball needs to be a worthwhile and enjoyable experience for the youth player. Part of that enjoyment comes from being able to perform up to the individual player's "potential." The successful player is proficient in throwing and catching the baseball, hitting, and base running.

As an NCAA collegiate coach for 34 years, Coach Jancuska has seen "countless" talented baseball players who had not mastered the basics and therefore could not progress to the "Next Level." The Advanced Baseball Develop Camp will provide the instruction that has been used by Coach Jancuska at the collegiate level.

There will be an emphasis placed on skill development stations with hands-on instruction. Each day will conclude with a game, which will allow our coaches to instruct in "game situations."

Though playing and practicing the game of baseball will be the focus of our staff, there will be an underlying theme of sportsmanship, positive attitude, and hustle instilled in the players.

Our hope is that the youth player will have one of the most enjoyable camp experiences he has ever had. Our goal is for your son to come home and say "I learned a lot today – And I had a Great Time!"
