A Typical Week

A typical week for the Authentic Hockey Experience Program will include three evenings of training as well as enrollment into the Intense Ice Program for the month of July which equates to countless hours of ice time. Tuesdays and Thursdays will be on and off ice skills while Wednesdays will be scrimmages. The scrimmages will be recorded for video review. When available, games will be set up against other area programs. This may mean some weekend ice will be necessary.

Tournament teams will be selected for the Chowder Cup tournament series. Tournament fees are not included in the Authentic Hockey Experience Program base cost, however players are also not required to attend tournaments if they do not wish to participate. Tournament teams will travel in the Potomac Patriots team bus when available.

"We are committed to delivering a complete hockey experience to the high level youth and junior hockey players of this area. We have the coaches and the facility to offer the most ice time for the least money. Nobody will be able to compete with the value and quality of our program. Why pay 4 times the price for less product? We ARE the Authentic Hockey Experience."
