

What to Expect:

Every day, Camp Chillin' Cary offers a broad curriculum for our campers to take part in. Whether we are outside, on the ice, or in the camp room, we provide our children with a full day of cool activities. We believe that camp should be based around liveliness, education, creativity, life lessons, new friendships, and FUN, which is what we provide in every day's schedule. **See our schedule online for a breakdown of times and activities.**

What to Bring:

Our camp schedule changes by the hour, so make sure that your camper is prepared. The kids will be on and off the ice throughout the day, so packing a change of clothes with a variety of layers keeps our campers comfortable and happy. Warm clothes like gloves, hats, scarves, long pants, and sweatshirts, are very important to stay warm. Cool clothes like shorts and tank-tops are also recommended, especially during our summer months. It is optional for you to bring bug spray, bug bite relief cream, extra socks, lotion, or chap-stick for total camper comfort. However, we highly recommend that your child brings a helmet for protection on the ice, and they must wear closed-toe shoes while at camp. **Please note that some materials listed above are seasonal, not year-round.**

Guidelines:

Here are a few guidelines to ensure your child's safety and overall satisfaction:

- 1.) Camp is about making friends, learning how to become a better skater, and building character, so we unplug our campers. We provide each camper with fun weekly activities that may include games, crafts, field trips, skating lessons, hockey lessons, and more, which leaves little to no time for devices. Please help us enforce this rule so our campers are able to focus on the present.
- 2.) Kids need structure. It's important for us to set rules for each camper and their behavior. This ensures a safe environment for our camp as a whole. We practice the "1, 2, 3" disciplinary system. The system is designed to give our campers two warnings before they are asked to sit out of our activities for ten minutes.
- 3.) STAY COOL AND HAVE FUN!
