

Resource Team Charter

Integrated Technology

Resource Team Purpose

The Integrated Technology Committee works to improve the use of technology in the business of USA Fencing. The scope of the committee includes:

- Assisting the National Office with IT needs for USA Fencing including evaluating and recommending IT platforms for membership, tournaments, officials, and education
- Use and application of technology to increase the efficiency of national tournaments (use of software, electronic displays, self-serve check in, etc.)
- Use of streaming video for tournaments and meetings
- Use of current technology to aid in the efficiency of committee meetings

Resource Team Composition

Reviewed by staff and approved by BOD through application process.
