

March 15<sup>th</sup>, 2020

Dear Members,

As the coronavirus (COVID-19) pandemic affects our everyday lives, The Beaver Dam Family Center wants to assure you that the health and well-being of our athletes and members continues to be paramount.

As many of the nation's public and private school systems, businesses and other entities have elected to take a "pause," The Beaver Dam Family Center decided to remove the ice effective Monday, March 16<sup>th</sup>.

This decision does not come lightly. We know the Family Center is a second home for many of our skaters. However, after much deliberation, the Family Center Board decided it was best to err on the side of caution. With this being a public facility and us having limited resources to monitor who uses it, we feel this is the best way to protect our families and community.

The goal is to have the ice restored by April 20. However, the situation remains fluid and this may change. We are working with our coaches for a plan with ice show, synchro tryouts, test session, spring and summer ice. We will keep you updated once the plan is conveyed with all coaches and committee members.

We wish our families all the best in this time of uncertainty. If you have any questions or concerns, please feel free to reach out to any of your board members.

Sincerely,

The Family Center Board
