

REGISTRATION AND FEES

At the time of registration, all outstanding past due accounts **must be paid in full**. Players will not be able to participate in any WBLAHA events if there is an outstanding prior year balance.

Each age group this season will have a Registration Fee, a Base Fee and a Level Fee. When you register, you will have the option to pay the whole fee in full or elect to pay through an installment plan.

A majority of the age groups have multiple levels such as the U12 age group where there will be U12 A and U12 B teams or for PeeWee's there will be AA, B1, B2 and C teams. No matter what level of play for each of those age groups, all registered players will pay a Base Fee during the registration period.

After tryouts/evaluations, your registered player may be placed on a team that incurs an additional Level Fee, which will be invoiced via SportsEngine and payable within 30 days of invoice.

Payments will be done online using your SportsEngine account. Payments can be made via credit card, debit card or bank account. If choosing an installment plan, payments will be divided into three equal payments (Registration Fee and Base Fee). The first payment is due at the time of registration, the second is due November 10th and the third is due January 10th. Payments will be set up to autopay on the above dates.

If fees are not paid in full before January 15th, the player will no longer be able to participate in any WBLAHA activities.

Registration Fees are utilized to pay for operating costs, such as:

- Administration costs (office supplies, website, software licenses, postage, annual audits, etc.)
- Association owned equipment and property
- Rob Sund Scholarship Funds

Base and Level Fees are utilized to pay for player costs, such as:

- Level grading
- District 2 fees (game ice, referee fees, league fees, etc)
- Practice ice time
- Coach reimbursements
- Jerseys and socks
- Player development
- Tournament fees for three (3) tournaments for levels Squirts / 10U and above
- In-house jamboree for Mite/8U levels
